**Date** 22 December 2020

Dear Sir/Madam,

## **UPDATE ON UK DEPARTURE FROM EUROPEAN UNION (EU)**

### **CHANGES TO IMPORT REQUIREMENTS FOR PLANTS AND PLANT PRODUCTS FROM 1 JANUARY 2021**

On the 31 December 2020 the UK's transition period with the EU comes to an end and I am writing to notify you of the phased import regime we are adopting for imports of plants and plant products from the EU (including Switzerland and Liechtenstein), and some changes to our phytosanitary import controls. These new measures apply to imports into Great Britain (GB) from 1 January 2021.

The current risk based imports regime will be retained, which in future will focus on risks to GB. A phased approach is being taken, to ensure that GB's SPS regime remains appropriate to address the risks it faces. The 3 staged phased import regime for plants and plant products from the EU is as follows:

- From 1 January, all 'high priority' plants and plants products must have a phytosanitary certificate and pre-notification. These will be subject to physical and identity checks that will occur at place of destination (POD).
- From April 2021, all regulated plants and plant products must have a phytosanitary certificate and pre-notification. Physical checks will still only be required on EU high priority goods at PODs.
- From July 2021, the number of physical and identity checks on regulated plants and plant products will increase, and these checks will move to Border Control Posts (BCPs).

A list of high priority and regulated plants and plant products is available at [gov.uk](http://gov.uk). For further guidance on the phased import regime and checks please view the updated [Border Operating Model](#).

The changes being made to the phytosanitary import controls are based on the principles set out in the WTO-SPS Agreement and full details can be found at:

- <https://www.legislation.gov.uk/uksi/2020/1527/contents/made>
- <https://www.legislation.gov.uk/uksi/2020/1482/contents/made>

Further details and can be found in annex 1 to this letter.

These changes only apply to imports into Great Britain (England, Wales and Scotland). There will be no changes to how goods are moved into Northern Ireland from Member States.

Northern Ireland remains within in the European Union's (EU) Sanitary and Phytosanitary (SPS) area, so [EU import requirements](#) will continue to apply to imports of regulated commodities from third countries into Northern Ireland.

The IT systems used to facilitate the pre-notification of imports of plants and other regulated articles will be changing, moving from the current PEACH system to a new service. However, trade should continue to use the existing system until they are directed to register for the new service. The timing and sequencing of this migration will ensure a smooth and orderly transfer between systems and will allow sufficient time for exporters to become familiar with the new service. Technical support will be available during, and after migration. For any direct imports to Scotland, importers should continue to notify the Scottish Government until the new GB wide IT system is rolled out.

Further details on the UK's phytosanitary import controls will be available on the [United Kingdom's IPP portal](#).

Any questions regarding this letter or the changes being made should be directed to the UK's IPPC official contact point via [UKNPPO@defra.gov.uk](mailto:UKNPPO@defra.gov.uk).

Yours faithfully,

Professor Nicola Spence  
UK Chief Plant Health Officer  
[nicola.spence@defra.gov.uk](mailto:nicola.spence@defra.gov.uk)

## Annex 1: Technical changes which have been made to GB legislation

### How GB legislation is being amended

GB requirements, from 1<sup>st</sup> Jan 2021, are described in the retained EU law. For plant health, this retained EU law is the EU Plant Health Regulation (and its associated tertiary legislation) as it stands on 31<sup>st</sup> Dec 2020 and as amended by [The Plant Health \(Amendment etc.\) \(EU Exit\) Regulations 2020](#) and [The Plant Health \(Phytosanitary Conditions\) \(Amendment\) \(EU Exit\) Regulations 2020](#). Jointly, these instruments create the retained EU law applicable to plant health.

GB requirements are no longer set out in the EU PCR, they have all been captured in [The Plant Health \(Phytosanitary Conditions\) \(Amendment\) \(EU Exit\) Regulations 2020](#). All references to schedules in the following table are to the schedules in this piece of legislation.

**Note:** an error has been identified in the potato cyst nematode requirements in Schedule 7A point 20 (seed potatoes), point 22 (ware potatoes), point 31 (capsicum etc.), point 32 (leeks etc.) and point 33 (bulbs etc.), creating an unintentional impression that requirements have been strengthened.

For imports from EU Member States the intention is to remain as close as possible to the requirements in Annex VIII of the Phytosanitary Conditions Regulation but a reference to Union law is no longer possible, hence the reference to an appropriate EPPO standard. The expectation is that seed potatoes, ware potatoes and the other plants for planting which have requirements relating to PCN should meet the same standards as is set out in Directive 2007/33/EC. These points will be amended in subsequent updates of the GB plant health legislation. However, until then we will accept seed potatoes, ware potatoes and the other plants for planting referred to in the points listed above (in relation to the relevant options, where the EPPO Standard is referred to) which meet the following requirement in relation to PCN:

Originate in a site of production where the procedures to combat *Globodera pallida* (Stone) Behrens and *Globodera rostochiensis* (Wollenweber) Behrens set out in EPPO PM 9/26 have been implemented

**EU Quarantine pests which are present in the EU but absent from GB**

<b>Pests</b>	<b>Commodities with specific requirements</b>	<b>Points in legislation and third countries affected by the changes</b>
<i>Clavibacter sepedonicus</i>	<p>Plants for planting with roots, grown in open air</p> <p>Tubers of <i>Solanum tuberosum</i> L., for planting</p> <p>Tubers of <i>Solanum tuberosum</i> L. <i>Geosmithia morbida</i>	<p>Plants for planting, other than seeds, of <i>Juglans L.</i> and <i>Pterocarya Kunth</i></p> <p>Wood of <i>Juglans L.</i> and <i>Pterocarya Kunth</i>,</p> <p>Isolated bark and wood of <i>Juglans L.</i> and <i>Pterocarya Kunth</i></p>	<p>Schedule 7 part A point 59 (EU Member States and the USA)</p> <p>Schedule 7 part A point 120 (EU Member States and the USA)</p> <p>Schedule 7 part A point 121 (EU Member States and the USA)</p>
<i>Aleurocanthus spiniferus</i>	<i>No specific requirements</i>	<i>n/a</i>
<i>Anoplophora chinensis</i>	Plants for planting, as listed in legislation	<p>Schedule 7 part A point 66 (China)</p> <p>Schedule 7 part A point 67</p>

		(Any third country, other than China, where <i>Anoplophora chinensis</i> (Forster) is known to occur)
<i>Aromia bungii</i>	Plants for planting, other than seeds, of <i>Prunus L.</i>  Wood of <i>Prunus L.</i>	Schedule 7 part A point 80 (EU Member States other than any EU Member State where <i>Aromia bungii</i> (Faldermann) is known not to occur and any other third country where <i>Aromia bungii</i> (Faldermann) is known to occur)  Schedule 7 part A point 140 Schedule 7 part A point 141 (China, Democratic People's Republic of Korea, Mongolia, Japan, Republic of Korea, Vietnam and EU Member States other than any EU Member State where <i>Aromia bungii</i> (Faldermann) is known not to occur)
<i>Pityophthorus juglandis</i>	Plants for planting, other than seeds, of <i>Juglans L.</i> and <i>Pterocarya Kunth</i>  Wood of <i>Juglans L.</i> and <i>Pterocarya Kunth</i> ,  Isolated bark and wood of <i>Juglans L.</i> and <i>Pterocarya Kunth</i>	Schedule 7 part A point 59 (EU Member States and the USA)  Schedule 7 part A point 120 (EU Member States and the USA)  Schedule 7 part A point 121 (EU Member States and the USA)
<i>Meloidogyne chitwoodi</i>	Tubers of <i>Solanum tuberosum L.</i> , for planting	Schedule 7 part A point 20 (EU Member States, Liechtenstein and Switzerland)
<i>Grapevine flavescence dorée phytoplasma</i>	Plants for planting, other than seeds, of <i>Vitis L.</i> *****	Schedule 7 part A point 87 (EU Member States, Liechtenstein and Switzerland)
<i>Tomato leaf curl New Delhi virus</i>	Plants for planting, other than dormant plants, plants in tissue culture, seeds, bulbs, tubers, corms and rhizomes  Plants for planting, other than seeds, of <i>Cucurbitaceae</i> and <i>Solanaceae</i>	Schedule 7 part A point 8 (Any third country where pest is known to occur)  Schedule 7 part A point 9 (Any third country)
*Import of <i>Solanum tuberosum</i> plants for planting (seed potatoes) into GB are prohibited from all third countries other than EU Member States, Liechtenstein and Switzerland		
**Import of <i>Solanum tuberosum</i> not for plants for planting (ware potatoes) into GB are prohibited from all third countries other than Algeria,		

Bosnia and Herzegovina, Egypt, EU Member States, Israel, Libya, Liechtenstein, Morocco, Serbia, Syria, Switzerland, Tunisia and Turkey  
 \*\*\* Requirements for Machinery etc. for other third countries are set out in Schedule 7 part A point 2, these do not refer specifically to *C. platani*  
 \*\*\*\* Error in the wording of the legislation, this is how it should be.  
 \*\*\*\*\* Import of *Vitis* plants for planting into GB is prohibited from all third countries other than EU Members States, Liechtenstein and Switzerland

**Pests with EU Emergency decisions (other than pests listed in Annexes II A or B of Commission Implementing Regulation (EU) 2019/2072)**

<b>Pest</b>	<b>Commodities with specific requirements</b>	<b>Points in legislation and third countries affected by the changes</b>
<i>Pseudomonas syringae</i> <i>pv. actinidiae</i>	Live pollen of <i>Actinidia Lindl.</i> or plants for planting, other than seeds, of <i>Actinidia Lindl.</i> ,	Schedule 7 part A point 71 (Any third country)
<i>Epitrix cucumeris</i>	Tubers of <i>Solanum tuberosum L</i>	Schedule 7 part A point 23* (Third countries where <i>Epitrix cucumeris (Harris)</i> , <i>Epitrix papa Orlova-Bienkowskaja</i> , <i>Epitrix subcrinita (Leconte)</i> or <i>Epitrix tuberis</i> Gentner is known to be present)
<i>Epitrix papa</i>	Tubers of <i>Solanum tuberosum L</i>	Schedule 7 part A point 23* (Third countries where <i>Epitrix cucumeris (Harris)</i> , <i>Epitrix papa Orlova-Bienkowskaja</i> , <i>Epitrix subcrinita (Leconte)</i> or <i>Epitrix tuberis</i> Gentner is known to be present)
<i>Epitrix subcrinita</i>	Tubers of <i>Solanum tuberosum L</i>	Schedule 7 part A point 23* (Third countries where <i>Epitrix cucumeris (Harris)</i> , <i>Epitrix papa Orlova-Bienkowskaja</i> , <i>Epitrix subcrinita (Leconte)</i> or <i>Epitrix tuberis</i> Gentner is known to be present)
<i>Epitrix tuberis</i>	Tubers of <i>Solanum tuberosum L</i>	Schedule 7 part A point 23* (Third countries where <i>Epitrix cucumeris (Harris)</i> , <i>Epitrix papa Orlova-Bienkowskaja</i> , <i>Epitrix subcrinita (Leconte)</i> or <i>Epitrix tuberis</i> Gentner is known to be present)

		<i>known to be present</i> )
<i>Rose Rosette virus</i>	Plants, other than seeds and plants in tissue culture, of <i>Rosa spp.</i> , <i>L.</i>	Schedule 7 part A point 88 (Canada, India, Mexico and the USA)
	Plants, of <i>Rosa spp. L.</i> in tissue culture	Schedule 7 part A point 89 (Canada, India, Mexico and the USA)
<i>Phyllocoptes fructiphilus</i>	Plants, other than seeds and plants in tissue culture, of <i>Rosa spp.</i> , <i>L.</i>	Schedule 7 part A point 88 (Canada, India, Mexico and the USA)
<i>Phytophthora ramorum ramorum (European isolates)</i>	Plants for planting, other than seeds, of <i>Viburnum spp. L.</i> , <i>Camellia spp. L.</i> or <i>Rhododendron spp. L.</i> , other than <i>Rhododendron simsii Planch</i>	Schedule 7 part B point 1** (EU Member States, Liechtenstein and Switzerland)***
<i>Tomato brown rugose fruit virus</i>	Seeds of <i>Solanum lycopersicum L.</i> and <i>Capsicum spp.</i> , intended for planting	Schedule 7 part B point 6**** (Any third country)
	Plants for planting of <i>Solanum lycopersicum L.</i> and <i>Capsicum spp.</i>	Schedule 7 part B point 7**** (Any third country)
<p>* Note additional requirements for potatoes from Spain other than the Balearic Islands in Schedule 7 part A point 24 which relate to the risk of <i>Epitrix spp.</i></p> <p>**Requirements for GB internal movement in Schedule 8 part B point 1</p> <p>*** Note <i>P. ramorum</i> requirements for USA</p>		
<i>Phytophthora ramorum ramorum (Non-European isolates)</i>	Plants, other than fruit and seeds, of plants listed in the legislation	Schedule 7 part A point 65 (The USA)
****Requirements for GB internal movement in Schedule 8 part B point 2 and 3		

**Pests deregulated by the EU which have been reinstated as Quarantine Pests for GB**

<b>Pest</b>	<b>Commodities with specific requirements</b>	<b>Points in legislation and third countries affected by the changes</b>
<i>Circulifer tenellus</i>	No specific requirements	n/a
<i>Helicoverpa armigera</i>	Plants for planting, other than seeds, of <i>Chrysanthemum</i> , <i>Dianthus</i> and <i>Pelargonium</i>	Schedule 7 part A point 38 (Any third country)
<i>Helicoverpa assulta</i>	No specific requirements	n/a
<i>Liriomyza huidobrensis</i>	Plants of herbaceous species for planting, other than bulbs, corms, plants of the family Gramineae, rhizomes, seeds, tubers	Schedule 7 part A point 40 (Any third country)
<i>Liriomyza trifolii</i>	Plants of herbaceous species for planting, other than bulbs, corms, plants of the family Gramineae, rhizomes, seeds, tubers	Schedule 7 part A point 40 (Any third country)
<i>Spodoptera littoralis</i>	Plants for planting, other than seeds, of <i>Chrysanthemum</i> , <i>Dianthus</i> and <i>Pelargonium</i>	Schedule 7 part A point 38 (Any third country)

**EU Regulated non-Quarantine pests which have been classified as GB Quarantine pest due to them being absent from GB**

<b>Pest</b>	<b>Commodities with specific requirements</b>	<b>Points in legislation</b>
<i>Pseudomonas syringae</i> pv. <i>persicae</i>	Plants for planting, other than seeds, of <i>Prunus persica</i> (L.) Batsch and <i>Prunus salicina</i> Lindley	Schedule 7 part A point 78 (Any third country)
<i>Xylophilus ampelinus</i>	Plants for planting, other than seeds, of <i>Vitis</i> L.*	Schedule 7 part A point 86 (EU Member States, Liechtenstein and Switzerland)
<i>Diaporthe vaccinii</i>	Plants for planting, other than seeds, of <i>Vaccinium</i> L.	Schedule 7 part A point 85 (Any third country)
<i>Dothistroma pini</i>	Plants for planting, other than seeds, of <i>Pinus</i> L.	Schedule 7 part A point 58 (Any third country)
<i>Lecanosticta acicola</i>	Plants for planting, other than seeds, of <i>Pinus</i> L.	Schedule 7 part A point 58 (Any third country)
<i>Aphelenchoides besseyi</i>	Plants for planting, other than seeds, of <i>Fragaria</i> L.	Schedule 7 part A point 84 (Any third country where <i>Aphelenchoides besseyi</i> Christie is known to occur)
<i>Blueberry scorch virus</i>	No specific requirements	n/a

<i>Blueberry shoestring virus</i>	No specific requirements	n/a
<i>Candidatus Phytoplasma 'mali'</i>	Plants for planting, other than seeds, of <i>Malus</i> Mill	Schedule 7 part A point 74 (Any third country where <i>Candidatus Phytoplasma 'mali'</i> Seemüller & Schneider is known to occur)
<i>Candidatus Phytoplasma 'pruni'</i>	Plants for planting, other than seeds, of <i>Prunus</i> L.	Schedule 7 part A point 76 (Any third country)
<i>Candidatus Phytoplasma 'solani'</i>	Plants for planting, other than seeds, of <i>Fragaria</i> L., <i>Lavandula</i> L., <i>Solanaceae</i> , <i>Vitis</i> L. and <i>Vaccinium</i> L.	Schedule 7 part A point 28 (Any third country)
<i>Strawberry vein banding virus</i>	Plants for planting, other than seeds, of <i>Fragaria</i> L.	Schedule 7 part A point 82 (Any third country where Strawberry vein banding virus is known to occur)
*Import of <i>Vitis</i> plants for planting into GB is prohibited from all third countries other than EU Members States, Liechtenstein and Switzerland		

**EU Union Quarantine pests which have been classified as GB Regulated Non-Quarantine Pests (RNQP) due to them being present in GB**

<b>Pest</b>	<b>Commodities with specific requirements</b>	<b>Points in legislation</b>
<i>Tomato ringspot virus</i>	Plants for planting, other than seeds, of <i>Pelargonium x hortorum</i> , <i>Prunus</i> L. and <i>Rubus</i> L. <i>Prunus</i> L. and <i>Malus</i> L.	Schedule 5 part C
<i>Meloidogyne fallax</i>	Plants for planting, other than seeds of <i>Solanum tuberosum</i> L.*	Schedule 5 part F
*Import of <i>Solanum tuberosum</i> plants for planting (seed potatoes) into GB are prohibited from all third countries other than EU Members States, Liechtenstein and Switzerland		

**New GB Regulated Non-Quarantine Pests (RNQP)**

<b>Pest</b>	<b>Commodities with specific requirements</b>	<b>Points in legislation</b>
<i>Phytophthora austrocedri</i>	Plants for planting, other than seeds, of <i>Chamaecyparis lawsoniana</i> (Murr.) Parl., <i>Chamaecyparis nootkatensis</i> (D.Don) Sudw./Lamb.) Spach, <i>Cupressus sempervirens</i> var. <i>sempervirens</i> L., <i>Juniperus communis</i> ssp. <i>communis</i> L. and <i>Libocedrus chilensis</i> (D.Don) Endl.	Schedule 5 part C
<i>Phytophthora lateralis</i>	Plants for planting, other than seeds, of <i>Chamaecyparis formosensis</i> Matsum., <i>Chamaecyparis lawsoniana</i> (Murr.) Parl., <i>Chamaecyparis obtusa</i> Sieb. & Zucc. ex Endl., <i>Chamaecyparis pisifera</i> Sieb. & Zucc. ex Endl., <i>Taxus brevifolia</i> Nutt. and <i>Thuja occidentalis</i> L.	Schedule 5 part C

**EU Union Quarantine pests which have been deregulated by GB**

<b>Pest</b>	
<i>Candidatus Liberibacter africanus</i>	<i>Aleurocanthus citriperdus</i>
<i>Candidatus Liberibacter americanus</i>	<i>Aleurocanthus woglumi</i>
<i>Candidatus Liberibacter asiaticus</i>	<i>Amauromyza maculosa</i>
<i>Xanthomonas oryzae</i> pv. <i>oryzae</i>	<i>Anomala orientalis</i>
<i>Xanthomonas oryzae</i> pv. <i>oryzicola</i>	<i>Diaphorina citri</i>
<i>Xanthomonas citri</i> pv. <i>aurantifolii</i>	<i>Anthonomus grandis</i>
<i>Xanthomonas citri</i> pv. <i>citri</i>	<i>Hishimonus phycitis</i>
<i>Elsinoë australis</i>	<i>Tephritidae</i> (non-European)
<i>Elsinoë citricola</i>	<i>Toxoptera citricida</i>
<i>Elsinoë fawcettii</i>	<i>Coconut cadang-cadang viroid</i>
<i>Phyllosticta citricarpa</i>	<i>Citrus tristeza virus</i> (non-EU isolates)
<i>Pseudocercospora angolensis</i>	<i>Citrus leprosis</i> viruses
<i>Unaspis citri</i>	<i>Satsuma dwarf virus</i>
<i>Venturia nashicola</i>	

**GB provisional quarantine pests**

These pests do not have any specific import requirements (except for *Phytophthora ramorum* (European isolates)) but have been identified as pests which have been assessed under retained law as potentially meeting the requirements to be a Quarantine pest and therefore if they are identified on imports action will be taken.

<b>Fungi and oomycetes</b>	<b>Insect and mites</b>	<b>Viruses, viroids and phytoplasmas</b>
<i>Alternaria mali</i>	<i>Agrilus fleischeri</i>	<i>Apple dimple fruit viroid</i>
<i>Heterobasidion irregulare</i>	<i>Agrilus bilineatus</i>	<i>Citrus exocortis viroid</i>
<i>Neocosmospora euwallaceae</i>	<i>Ceratohripoides brunneus</i>	<i>Columnnea latent viroid</i>
<i>Phytophthora kernoviae</i>	<i>Ceratohripoides claratris</i>	<i>Pepper chat fruit viroid</i>
<i>Phytophthora ramorum</i> (European isolates)	<i>Euwallacea fornicatus sensu lato</i>	<i>Tomato chlorosis virus</i>
<i>Thekopsora minima</i>	<i>Neocerambyx raddei</i>	<i>Tomato infectious chlorosis virus</i>
	<i>Platynota stultana</i>	<i>Tomato planta macho viroid</i>
	<i>Prodiplosis longifila</i>	<i>Tomato torrado virus</i>
	<i>Scaphoideus luteolus</i>	<i>Tomato yellow leaf curl Sardinia virus</i>
	<i>Scaphoideus titanus</i>	<i>Tomato yellow leaf curl virus</i>
	<i>Scolytus morawitzi</i>	
	<i>Tetranychus evansi</i>	
	<i>Thaumetopoea pinivora</i>	
	<i>Trialeurodes abutiloneus</i>	
	<i>Toumeyella parvicornis</i>	
	<i>Xyleborus glabratus</i>	
	<i>Xylotrechus spp</i>	

**Products which have been deregulated**

<b>Commodity</b>	<b>Third countries affected by the changes</b>
Fruits of <i>Ananas comosus</i> (L.) Merrill*	All Third Countries
Fruits of <i>Actinidia</i> sp. Lindl	All Third Countries
Fruits of <i>Cocos nucifera</i> L.*	All Third Countries
Fruit and leaves of <i>Citrus</i> sp. L.	All Third Countries
Fruit of <i>Fortunella</i> sp. Swingle	All Third Countries
Fruit of <i>Poncirus</i> L. Raf	All Third Countries
Fruit of <i>Diospyros</i> sp. L.	All Third Countries
Fruits of <i>Durio</i> zibethinus Murray*	All Third Countries
Fruits (bolls) of <i>Gossypium</i> spp.	All Third Countries
Grain of <i>Oryza</i> spp. L.	All Third Countries
Leaves of <i>Murraya</i> spp.	All Third Countries
Fruits of <i>Musa</i> *	All Third Countries
Fruits of <i>Mangifera</i> sp. L.	All Third Countries
Fruits of <i>Phoenix dactylifera</i> L.*	All Third Countries
Fruits of <i>Passiflora</i> sp. L	All Third Countries
Fruits of <i>Psidium</i> sp.	All Third Countries
* These commodities have already been deregulated.	

**Other changes**

Begomoviruses – there are no exclusions as there are no Begomoviruses in GB
<i>Monochamus</i> sp. – included all <i>Monochamus</i> sp. not just non-European as there are no <i>Monochamus</i> sp. in the UK
<i>Bemisia tabaci</i> – no difference in requirements between European and non-European population.
No RNQPs in relation to cereal pests as all EU RNQPs for cereal relate to rice which is not produced in GB
